

Payroll Giving

The tax efficient and effective
way to help thousands of animals
every month

**No animal should suffer from injury, disease, abuse or neglect.
With your help, we can end the suffering of pets and working animals.**

Payroll Giving, also known as 'give as you earn' or 'workplace giving', is a quick, easy and tax efficient way for both employees and employers to support animals in need.

Together for Animals raises much needed funds for its member charities - Blue Cross, Mayhew, SPANA, and World Horse Welfare.

Animals contribute so much to our mental and physical wellbeing - by working together we are ensuring that they can enjoy happier, healthier lives. Every donation helps four charities save thousands of animals lives. Help us save pets and working animals from disease, neglect and abuse.

Vincent was abandoned at 7 weeks old, after his ear and tail were cruelly cut off. With your help, we can make sure pets like Vincent don't have to suffer the terrible ordeal of being abandoned, unwanted or unloved ever again.

With regular donations made through payroll giving, Together For Animals can make much needed plans for the future - which will allow our members to reach even more animals in desperate need of our help.

Benefits of payroll giving for employers:

- Quick, simple and cost-effective, with virtually no set-up costs.
- Enhances your corporate social responsibility profile.
- Boosts your reputation and public image.
- Demonstrates commitment to causes your employees care about.
- Aids staff recruitment and retention, and improves morale.
- Recognition through quality marks and excellence awards.

Benefits of payroll giving for employees:

- Easy and tax-effective, costing employees less to give more - a £10 per month donation raises £12 for charity.
- Provides employees with the opportunity to support the causes they care about.
- Flexible, giving employees full control over how much they want to donate and which charity or charities they would like to support.

Your kindness and support will help us continue our work ensuring animals can enjoy happier, healthier lives:

Gloria had a terrible start in life, having been bred purely for profit, the little border collie was seriously unwell. Thanks to the care of our member, Blue Cross, she recently spent her first Christmas with her new family.

Frodo, a neglected and frozen foal, was rescued and nursed back to health by Together for Animals member World Horse Welfare. Now transformed, he has a bright future ahead of him and is a much-loved pony.

An abandoned litter of tiny kittens were suffering from the worst flea infestation the team at Together for Animals member Mayhew had ever seen, and their life was in danger. Thanks to the care they received they made a full recovery and were happily rehomed.

Zine was born with a knee deformity that meant he wasn't able to walk or even stand properly. Thanks to the free care and treatment provided by Together for Animals member SPANA he is able to walk and lives a healthy life.
